### "I Thought The Wreck Was Over"

Visit "[I Thought The Wreck Was Over](#)" on [MotoLyrics.com](https://MotoLyrics.com)

I thought the wreck was over  
I thought the fire was out  
I thought the storm had passed  
And I was safe at last  
I thought thw wreck was over  
But here she comes again

Livin' with her liked t'killed me  
Living without her might as well  
At first I thought I'd died and gone to heaven  
In fact I had lived and gone to hell

I thought the wreck was over  
I thought the fire was out  
I thought the storm had passed  
And I was safe at last  
I thought thw wreck was over  
But here she comes again

They'll tell you to expect the unexpected  
But nobody ever tells you where it's hid  
I can't tell you how many times she left me  
I lost count the very first time that she did

I thought I was movin' fast and gettin' stronger  
I thought the coast was clearer  
'Till I looked into the mirror  
And saw a set of skid marks gettin' longer

I thought the wreck was over  
I thought the fire was out  
I thought the storm had passed  
And I was safe at last  
I thought thw wreck was over  
But here she comes again
