By Buth Hancock

Sundogs barkin', barkin' round my dreams
Three ring circus rockin' round the sun
The taste of fire and Julia's name
Right there on the tip of my tongue

I was on the mountain
And the sun was goin' down
All I's wishin' for was Julia

I kissed her on the mouth, I looked her in the eye
I's actin' half my age and feelin' way too proud
I drove into the desert, I drove up to the sky
I parked it and I left it just a hangin' on a cloud
I was on the mountain
The first star was shinin' down
All I's wishin' for was Julia

Night wind blows
Stars above the blue
Heaven knows
Only love will do

Now what's a few miles between the beauty and the
beast
What's it mean when angels keep flying by above
Storm clouds gatherin' round the full moon in the east
I was empty-headed but my heart was full of love

I was on the mountain
Lightnin' all around
All I's lookin' for was Julia

The more you need her help the more she let's you
down
The more you like the way she walks the more she
shakes her hips
The more you fall in love with life the more she runs
around
The more you fear the kiss of death the more she licks

her lips

I was on the mountain
There was thunder rumblin' down
All I's listenin' for was JULia

Night wind blows
Stars above the blue
Heaven knows
Only love will do

I was on the mountain
I was never comin' down
All I's thinkin' bout was Julia

All I's thinkin' bout was Julia
