(Jimmie Dale Gilmore)

Down in my hometown there is a fortune  
They used call it gold but now it's love I'm told  
With a worried mind I put my time in  
But hunger comes and goes even while the wild wind  
blows

Now I could sing you a song of inspiration  
Or of new world where everyone is free  
But know you there ain't no new way to salvation  
The time is gettin' short my friends for you and me

Down in my hometown there is a fortune  
They used call it gold but now it's love I'm told

(Instrumental)

Now when I left there, my eyes cast down in sorrow  
So very soon I found the darkness on the ground  
And now I see the clouds gatherin' for tomorrow  
But I must journey on the one road I have found

Down in my hometown there is a fortune  
They used call it gold but now it's love I'm told  
With a worried mind I put my time in  
But hunger comes and goes even while the wild wind  
blows
