(Butch Hancock)

(Chorus)

She had money, she had time  
She had everything in this world that was mine

Well shame on myÂ ?, shame on my face  
Shame on the sunshine in the golden autum leaves  
Shame on my man who said I'm sorry mamm  
I know you made mistake but you've made me what I  
am

(Chorus)

She knew the in's and she knew the out's  
She knew just how to clear up all my doubts  
She had ways, she had means  
She had fame and society scenes

(Chorus)

She went far and she went wide  
She always said that we saw eye to eye  
She showed me the light that came from above  
She showed meÂ ? and she showed me love

(Chorus)
