### "Stars in My Life"

Visit "[Stars in My Life](#)" on MotoLyrics.com

(Butch Hancock)

The stars in my life will shine like sunshine  
If only I can see your smiling face  
Though this universe collapses on occasion  
The stars in my life will stay in place

Your kind of consciousness and holy vision  
Lights up stars with a light so fine, so pure  
This universal law needs no revision  
The stars in my life will shine for sure

(Instrumental)

Though dark clouds may hide your lovin' powers  
Darlin' all my stars will shine for you  
The sky may cover up with thunder showers  
But you can make my stars come shinning through

The stars in my life will shine like sunshine  
If only I can see your smiling face  
Though this universe collapses on occasion  
The stars in my life will stay in place

Yes, the stars in my life will stay in place
