When everything returns in turn to its past
Fighting and breeding alive
What you think isn't this and what is isn't that
Deceiving your friends till they're
gone.
Gone.
Gone away to a place
where you can not be scared just to face the inside of
your soul
Alone
Chorus
yeah...
you'll never see his face
(Won't see his face)
when the time comes do you think that you'll be
prepared
to face what you always have feared
and be the one saved
Or just face the despair
when your beliefs fade for
fear
fear
fear for comfort in your faith
are you afraid to just stand up against weakness of
hope
again

Chorus x2
