You can't face the change  
When you break away,  
When you break away,  
And you leave it all  
Chance to make the change inside you,  
Leave the memories behind you,  
Forget about what life has taught you,  
Time will steal it all,  
And you can't find the place,  
Where we stay the same,  
Where we stay the same,  
And we'll never change

Chorus

When you come down,  
From searching,  
For all the places you can't find again  
You will feel it,  
It comes round,

And calls you from within

I turn myself to face,  
What I am today,  
What I am today,  
But I can't see it all  
Never found a place,  
Where we'll stay the same,  
Where we'll stay the same,  
And we'll never change  
All that comes and never leaves,  
Loses that we never grieve,  
Never knew what to believe, and I never will  
So much living in the past,  
All the dreams that never last,  
Waking in a world so vast,  
Its all in me...

Chorus
