Best days, Worst nights,  
A new love, that just dies  
One Win, One Lose,  
Everything now has a cost...

Chorus  
As it spins around  
The earth and ground  
But you can't get out  
Of the Balance

A new born, It's last days  
Your one hate, you must praise  
Its karma, you can't shake,  
This cycle which you can not break...

Chorus  
It evens, up the, score for, which you live your life and  
It flows through, all your, choices just like mine

The balance which controls our life,  
Spins round, can't get out  
And were all just stuck inside,  
The balance, of our lives

Chorus

Now, now, you can't get out right now, now, now, you  
can't break the balance now
