## "All The Worst"

Visit "[All The Worst](#)" on [MotoLyrics.com](https://MotoLyrics.com)

How do we deal with this?  
How do we clean up all this mess?  
Will there be a future  
For the latest generation?

Running around  
Believing the sound  
Is anything loud  
Enough for us to decipher

Making a stand, extending our hand  
We must understand  
It's the least we can offer  
Those less fortunate than us

Something about this place  
It brings out all the worst  
Our history's been disgraced  
Who will destroy who first?

Something about this place  
It brings out all the worst  
Our history's been disgraced  
Who will destroy who first?

I'm balling up my fists  
Waiting here defenseless  
Isn't pacifist, it's ignorant  
Cannot be allowed

Maybe it's here  
Or maybe it's there  
We're never aware  
Of just how safe we are

Could it be them  
Or could it be us?  
Unable to trust  
The information that we need

Something about this place  
It brings out all the worst

Our history's been disgraced  
Who will destroy who first?

Something about this place  
It brings out all the worst  
Our history's been disgraced  
Who will destroy who first?

If hurting still exists  
Make it go away  
The problems that are plaguing  
You and I the same

Causing it to stay  
Counting down the days  
It's eating at the very core of us

Something about this place  
It brings out all the worst  
Our history's been disgraced  
Who will destroy who first?

Something about this place  
Brings out all the worst  
Our history's been disgraced  
Who will destroy who first?

Something wrong with this place  
Something wrong with this place
