Come on and brace your face  
Engulfed up in the rat race we hold our futures down  
So, just resist the plot and find the answer  
Etched eternal as we self destruct

Day by day, one by one  
One more example of disrespect  
And that you seem to offer no more than complete  
neglect  
A generation with fate all tied  
And this ain't a game we don't enjoy this ride

We try to perceive the lie  
All caught up in your own high  
Opinions of yourself  
Should be concerned about your life  
There's been enough strife to crash a persons hope

And as the days delay our every other move  
We've been consumed by apathy  
Thats right, it has become a pain  
Inside my brain is screaming  
Look what you've done to me

Day by day, one by one  
One more example of disrespect  
That you seem to offer no more than complete neglect  
A generation with fate all tied  
Your pain [Incomprehensible]  
I think you know you [Incomprehensible]

Break  
It's just the break we're givin' 'em  
Break  
It's just the break that you're givn' 'em

Break  
It's just the break we're givin' 'em  
Break  
It's just the break that you're givn' 'em

Break

It's just the break I'm givin' 'em  
Break  
It's just the break that you're givin' 'em

Break  
It's just the break we're givin' 'em  
It's just the break I'm givin' 'em

Layed to waste out in the open  
Turned away once again  
This isn't right this ain't supposed to happen  
Now life's too short we shouldn't have to die

And I have had to stop all of my emotions  
Why?  
Oh bittering faith escapes again, again

Just look at what we have done  
Will you look at who we've become  
Priorities astray goes on and on each day  
We've wrecked their only try  
And still we wonder why  
We're recipients  
Of hate motherfucker

Break your back just once and then you know  
You gotta face your fright  
That's right yeah  
With your five second morals and your three second  
smile

You just face your fright  
That's right yeah  
With your five second morals and your three second  
smile  
You just face your fright  
That's right yeah  
With your five second morals and your three second  
smile

You just face your fright  
That's right yeah  
With your five second morals and your three second  
smile  
You just
