Here we sit all alone in an outnumbered fight
Led to decipher between wrong and right
And some may fail at this joke that some of us call life
Yes at this game that some call life

But the system can't bail me out of hell
I've made this discovery and it has helped
All I've got is myself I have faith in that
Believe and one day, you'll do just as well now

As you were you little puppet, you pauper, you freak,
that's right
That's what some of them have said to me
So I object and try to figure things out for myself
I'm building up full emotional wealth

But the system can't bail me out of hell
I've made this discovery and it has helped
All I've got is myself, I have faith in that
Believe and one day, may be you'll do just as well now

The inner strength, is what the hate, it wants us not to
feel
The inner strength, is what the hate, it wants us not to
feel
The inner strength, is what the hate, it wants us not to
feel
The inner strength, is what the hate, it wants us not to
feel

It's time that we helped, there's no room to fail
You already know the way out of hell
All we've got is ourselves, I have faith in that
Believe and one day

We'll put the system in jail
We'll put the system in jail
We'll put the system in jail
We'll put the system in jail

I made it through scraped black and blue
But so can you I made it through so black and blue

But you can too I made it through scraped
Black and blue

We'll all make it through
We'll all make it through
We'll all make it through
