"Not Enough"

Visit "[Not Enough](#)" on MotoLyrics.com

Wake up your life
You may never get the chance to make things right
Rather than lie
Take a moment to reflect on what's gone by
It's a mistake
There's no reason I should be so full of guilt
Significant break
So you severed all the ties that we have built

(All I know)
I tried to give you what was left of me
But it was not enough
(Even though)
I didn't think about the rest of me
That it was not enough

(All I know)
I tried my hardest with the best of me
But it was not enough
(Even though)
I tried to give you what was left of me
But it was not enough

All mixed up inside
And it's easy to forget what we should be
It's useless to hide
I can see to the heart of your insecurity
All of this time
Blaming others for the cause of what we've lost
Nothing sublime
I must overcome no matter what the cost

(All I know)
Tried to give you what was left of me
But it was not enough
(Even though)
Didn't think about the rest of me
That it was not enough

(All I know)
I tried my hardest with the best of me
But it was not enough

(Even though)
Tried to give you what was left of me
But it was not enough

Please give back what's not yours to have
It's the only thing that I've got left
Never was enough to satisfy
And I'm left empty

(All I know)
Tried to give you what was left of me
But it was not enough
(Even though)
I didn't think about the rest of me
That it was not enough

(All I know)
I tried my hardest with the best of me
But it was not enough
(Even though)
I tried to give you what was left of me
But it was not enough

I tried to give you what was left of me
But it was not enough
I didn't think about the rest of me
That it was not enough
I tried my hardest with the best of me
But it was not enough
