#### 1. Only The Strong

what makes you think that it'll all work out in the end.

afraid to feel bad. better off to try and pretend. I'm

immortal, immune to all that is wrong. just keep on wishing.

crossing my fingers. so long. is this helping? i'm growing

weaker each day. can't stop whining.

still afraid of what i might say or reactions, that control us one and all.

[chorus]

It's mine, it's pure and as decent as i can make myself.

Inside, we all know, only the strong survive.

Why don't you think about that?

so now i'm bleeding on myself yes once again.

seems i trusted another deceitful freind. my fault. should've known the deal.

keep your friends close, but your enemies closer, for real.

seems easy, but nothing could be so hard. trying to guess lifes

dealing. what's the next card? I'm surely folding.

i don't like this hand at all.

[chorus]

Keep those eyes wide open, here comes a blind side.

maybe things happen for a reason and wherein lies the answer.

to overcome the grieving of lifes unruly lessons. i'm handed

in sucession. it builds my pain which makes me strong.

[chorus]

Why don't you think about that??

2. Payback

There's another reflection involved up in my mind

A wholeness that has just been lost

Striving hard for perfection but still nothing to find

Some value with a cheaper cost

And as I reach out to hear you the sound is so muffled

It makes a lesser man of me

So the only thing left to bring up to date is

[chorus]

You suck!

Watch me fall while I go down

I'm taking all you bastards to the ground with

me then I'll frown

On your fucking whole life

The systematic hype still means a bit much to me

[repeat]

I'm at the point of retraction and still slipping further

This place is getting worse for me

There's such a lack of direction and models to live by

No bright skies ahead of me

And as I reach out for your hand you turn and

then wander

Why I simply just can't see

No separation of gender no difference in me

You're just leading me on and on and on

You lead me on and on and on and on

[chorus]

Pretty soon it's gonna come back and be your turn

Pretty soon you're gonna be the one that burns

[chorus]

Your turn now

### 3. My Letter

This is my letter to you

We started following a certain description.

We started simple and fair once again

Before there wasn't any need for an answer

Things were much different then

[Chorus]

But now you question who I am.

Who I am inside

Now there's nothing left to hide.

So here it goes

This is my letter

Hope you're alright. It's been rough for me

thinking all night. About the places I'd be

If I maybe, just did a little bit more you might've

Let me, become a man for sure

And if I might, express one concern it seems an

issue. All day at every turn

What's the next step, the latest hole in my life

What's next for me to learn

Engulf myself into a permanent mystery.

No one day just as the next.

not for me

It's so confusing when I look at my history.

I just can't handle that yet.

No

[chorus]

One more friendship ends.

And then for awhile.

I can breathe again

[chorus]

#### 4. Get Up Again

Here we go again

A very temperamental process, beginning with

all of our excess

Affecting our very own ingest, this side of

you is speechless

Overwhelmed with an abscess, creating new diseases

And infecting whomever it pleases, we've been  
living this way for too long, too long  
Then I noticed a difference, in the way that I  
saw other insects  
Who were living a life of indulgence, sheltered  
by their parents  
Such an unlucky existence, not given a  
chance to experience  
And make their own decisions, I wouldn't trade  
my own mistakes at all

[Chorus]

Reach out your hands  
Out for the ones who, aid when the going gets rough  
Until the end.  
These are the ones who, help when the times get tough  
And times will get tough.  
Get up again.  
Times will get tough.  
Get up again

Here it comes once again

[chorus]

5. Whole

So Maybe I am Bound By Fate  
A Problematic Scarring Induced By Hate  
It Never Seems To All Pan Out  
Is That What All This Teaching Is Needed To Scout

You Seemed To Have A Bad Effect  
Your Rules And Contradictions I would Neglect  
Though Not My Fault You Made Me Feel  
Like My Own Education Wasnt Truly Real  
Then You Came Right In Tearing Out My Soul  
How Could All This Loss Be Your Only Goal  
I'm Left Standing Here Desperate In The Cold  
Since You Took Your Life Mine Has not Been Whole  
So There I Stood A Scolded Child  
The Reasons Never Questioned My Pains Been Filed  
Inside This Place That Makes Me Feel  
I learned Life Is Unfair And That Is Very Real  
[Chorus]  
While You Try To Overcome The Lesson  
Making The most Of Those Questions That Just  
Keeps Me Guessing  
I'm Looking Longer, Harder, Further Than I Ever Have  
Solitude Breaking Me Down You Always Seemed Glad  
To Put Me down And Stick Me In That little Pit  
Personal Growth As A child That Mattered Not A Bit  
Then I Became The Person That You Hated Most  
Disrespecting The Father, Son, And Holy Ghost  
A Small Example Of What The Things You've Done To  
Me  
Have Changed In My Life And Changed The Things  
I'll Never Be

I'll Never Be

[Chorus]

6. Amendment

Come on and brace your face

Engulfed up in the rat race we hold our futures down

So just resist the plot and find the answer

etched eternal

as we self destruct

[Chorus]

day by day

one by one

more example of disrespect

that you seem to offer no more than complete neglect

a generation with fate all tied

this aint a game

we dont enjoy this ride

try to perceive the lie

all caught up in your own high

opinions of yourself

should be concerned about your life

theres been enough strife to crash a persons hope

and as the days delay our every other move

we've been consumed by apathy

thats right

it has become a pain

inside my brain is screaming

look what you've done to me

[chorus]

Break

its just the break we're givin em

Break

its just the break that you're givn' em

Break

layed to waste out in the open

turned away once again

this isn't right

this ain't supposed to happen

now life's too short

we shouldn't have to die

and i have had to stop all of my emotions

why

oh bittering faith escapes agian, agian

just look at what we have done

will you look at who we've become

priorities astray

it goes on and on each day

we've wrecked their only try

and still we wonder why

we're recipients

Of hate Motherfucker

break your back

just once and then you know

you gotta

face your fright

that's right

yeah

with your five second morals and your three second  
smile

you just

face your fright

that's right

yeah

with your five second morals and your three second  
smile

you just

face your fright

that's right

yeah

with your five second morals and your three second  
smile

you just

face your fright

that's right

yeah

with your five second morals and your three second  
smile

you just

7. Scheme

It woke up in me years ago how this was meant to be  
all of those falsehoods plain to see they dug  
and hung their greed  
will there be profit you could see if only we were blind  
lonely and sheltered, our life is free but it's  
still one step behind  
just like me, they tried their rules on me  
they tried their rules on me, me, me  
i broke those chains and fucking split  
and so you and so you and so you and so you  
pass all the fascist asses ignore those classes  
of bottleneck masses  
producing an all but awful stench, delivering a  
section off all the money stole and spent  
as you start to recognize you're in the game  
growing afflictions head to toe, this never  
should have been  
but placing blame is cowardly restructure must begin  
will there be profit you could see if only we were blind  
lonely and sheltered your life is free, but it's  
still one step behind

[chorus]

yes and the playing board is you...

## 8. What I Have To Do

Well it seems as though everyone's been led astray far  
away from.

From what we know, still can't find a reason or  
the right words to say. It'll be ok.

[Prechorus]

Wrapped up in all the things that are wrong.

It's the only trial so far, as the verdict falls down you  
still break away.

[chorus]

Caught up in a social degradation, you can't even see  
the truth.

We're only half as good at personal relations, look  
around and see the proof.

Only a few of us go in the right direction, even though  
we're singled out.

It's the only thing that keeps

me alive, I do what I have to do.

How was I to know, force fed corporate trials each day,  
every single day.

But we must grow, echoing the single most thing in the  
way.

[prechorus]

[chorus]

Not slipping, still drifting, falling one step further from  
the norm.

What is the norm? Not living, longing, trying so much

harder than before. What if I, what if I run far away?

Would I still be seen the same? Break away.

[chorus]

It's what I want.

9. Inner Strength

Here we sit all alone in an outnumbered fight  
led to decipher between wrong and right  
and some may fail at this joke that some of  
us call life

yes at this game some call life

but the system can't bail me out of hell

i've made this discovery and it has helped

all i've got is myself i have faith in that

believe and one day you'll do just as well now

as you were you little puppet you pauper you

freak that's right

that's what some of them have said to me

so i object and try to figure things out for myself

i'm building up full emotional wealth

[chorus]

the inner strength is what the hate it wants

us not to feel

it's time that we helped there's no room to fail

you already know the way out of hell

all we got is ourselves i have faith in that

believe and one day

we'll put the system in jail, we'll put the system in jail

i made it through scraped black and blue

but so can you i made it through so black and blue

but you can too i made it through scraped

black and blue

but so can you i've made it through

we'll all make it through

[chorus]

10. Best I Am

Long.

I've Been Running away for far too long

Afraid of what

Afraid of what I know is soon to come

I may not be much of an example right now

But I can give you all of my knowledge on how

to get along in this place

right now all I can say

[Chorus]

Is that I will do the best that I can

to be a good example of man

I know one day that You'll understand

you deserve the best that I am

you deserve the best that I am

It's So hard

so hard to think about when I was child

so angry at life

I blamed the world for such a long long time

But Things happened so quickly

some people just go

I needed answers to heal me

I wanted to know how to get by

and now its my turn to say

[chorus]

This is all for you

everything in this world

everything in my world

everything in your world

things wont always go right in this life

theres always changes

we'll make it

[Chorus]

11. Out Of Whack

maybe nobody told you about this life

maybe nobody answered your questions why

simple revelations they come in time

those liars told us things would all be fine

born out of whack give him something possible

you thought it would've mattered

not likely to change things we've come too far

where innocent young kids are put behind bars

but it's an easy decision banished so far

you're not as civil as you think you are

[chorus]

you say we're all born out of whack

well don't act so surprised how there's been

a lot going on

since you realized that we're all just kids trying  
to get along  
so answer one thing  
are you gonna stay inside. are you gonna stay  
inside of our minds?  
are we all born wrong?

[chorus]

## 12. Reliance

so you think the areas gray but it continues each day  
a bad example of the attitude you portray  
act like I owe you my life you should be  
burdened with strife  
so i continue to pray hope that  
you'll go away  
a bad addiction to a home wrecking thing who plays  
with my heart and that's the bottom line  
i feel so empty  
what can you give me that I can't give myself  
and what part of my life can you fix, that I  
can't fix my damn self  
god i'm losing patience each day i've put  
myself in harms way  
can't seem to justify none of the shit you say  
can't find another way out here's nothing left  
but pure doubt

i'm on the verge of pulling my hair straight out  
so if you listen to me not to the powers that be  
we're not supposed to be together can't you see  
in decision is the bottom line i feel so empty now

[chorus]

i'm gonna show you now this time i'm getting out  
i've said it many times but this time I have  
figured out

just how i'm moving on it's taken way too long  
inside I know i'll feel much better when you're  
really gone

[chorus]

### 13. One More Time

There must be something you can recommend.

I've lost my faith in man again

So sick of trying to pretend.

Same pain over and over again

How much longer do you think we'll stand.

So little left here to live for

By the time my life is at its end.

[Chorus]

I want it back one more time

Let me try one more time.

Live my life one more time

We never seem ready for this

It keeps on haunting me day after day. Am I

going about things the right way

Which truth's to pass and with which truth's to say

It's all so hard I'm just so damn afraid

Had about as much as I can take.

So little left here to live for

By the time my life is at its end.

I'll want it back

[chorus]

I need the chance to live my life one more time

Give me the chance to live my life one more time
