I remember those days when we didn't care

About one thing that now I have  
And has passed not enough time though  
But I'll stay unbroken I'll keep my oath  
I don't fucking care about those words  
Which you have listened from hardcore shows  
I believe in myself, I believe in my crew  
Nobody makes you listen to  
But you have to know and keep it in mind  
We are just straight edge kids and not enough  
I have changed just the pure fucking life  
It is the struggle, It is the strife.

We've been changed by what we have  
In our souls and our hearts  
And there is no matter what everyone'll say  
I've got the straight edge.

We've got the straight edge.
