Written by christine mcvie.

Ohh you're a dream  
Hide your head in the sand  
You're far away, when I want you around  
And you leave me lonely when I'm feeling down

Do your ever wonder, or worry about me  
Did I ever love you, did you ever love me  
Do your ever wonder, or worry about me  
Did I ever love you, did you ever love me

Why is it baby, our love just won't grow

You made me happy but time has gone by  
Please leave me softly, I won't say goodbye  
So all I wanted slips through my hands  
You're far away when I want you around  
And you leave me lonely when I'm feeling down

Do your ever wonder, or worry about me  
Did I ever love you, did you ever love me  
Do your ever wonder, or worry about me  
Did I ever love you, did you ever love me
