"Forever"

Visit "[Forever](#)" on MotoLyrics.com

I like the way the light falls today
Slow, too lazy for anything
And I see boats that are sailin' past me
You know, I wish this day could keep on goin' and last
forever

Forever and ever and ever and ever
(That's the way I feel)
Forever and ever and ever and ever
Forever and ever and ever and ever
(That's the way I feel)
(Feel)
Forever

You know I like the way the light falls today
Slow, too lazy for anything
And I see boats that keep sailin' past, but not too fast
You know what, I wish this day could keep on goin' and
last forever

Forever and ever and ever and ever
Forever and ever and ever and ever
Forever and ever and ever and ever
(That's the way I feel)
Forever

Don't fool around, please don't fool with my happiness
Please don't fool around, don't fool with my happiness
You know I like the way the light falls today
Please, please, please just let me stay that way
Too lazy, too lazy for anything
