Well, I feel so bad, I wonder what's wrong with me  
Well, I feel so bad, I wonder what's wrong with me  
I think I'll call my baby  
Find out just what the matter can be

Last night I dreamed about my baby  
I woke up and the tears were running all down my face  
Now, when I woke up early this morning  
The tears were running all down my face  
You know I was dreaming  
That some other man was taking my place

I said, I dreamed about you, baby  
I dreamed you didn't want me 'round no more  
I said, I dreamed about you, baby  
You know I dreamed you didn't want me round no more  
Now, that's the reason I'm calling you this evening  
Baby, tell me 'cause I've just got to know

I've been worried all day long  
I just don't know what to do  
I've been worried all day long  
You know, I just don't know what to do  
You know it may sound silly to you, woman  
But tell me that dream was not true
