Little Miss Sad One
Why are you crying?
Did your lover leave you all alone and blue?
Little Miss Sad One
You should never stop trying
A new love will come to you

Little Miss Sad One
Dry your eyes
And come to me, come to me
I know how you feel
So lonely and blue
For I once was a sad one, too

Cruel are the ways of a bad love affair
That leaves you so alone
Try to forget, and remember some day
The right one will come along

Little Miss Sad One
Dry your eyes
And come to me, come to me
I know how you feel
So lonely and blue
For I once was a sad one, too
