Sad little girl
Don't be blue
That little boy who made you cry
Is as sad as you
Just as sad as you

Sad little girl
Wonder what she'll do
Would you take him back with open arms
If he asked you to?
Wonder what you'd do

He misses you so very much
He's so all alone
He wants to hold you close again
And call you for his own

Sad little girl
What shall I do?
Just say the word and I'll be back
Making love to you
What will I do?
