"The Basement Next Door"

Visit "[The Basement Next Door](#)" on MotoLyrics.com

Live in a duplex.
a big old house in a big old town.
split down the middle.
we got the plywood walls nailed over the doorways.
basement connected.
nailed up with wood.

They say he cooked meth in the basement next door.
they say he cooked meth in the basement next door.
twas the one right after nine oh nine.
twas the one the papers didn't write.

Paid in cash.
moved into a basement full of trash.
cereal boxes and a mattress hidden behind a wall.

They say he cooked meth in the basement next door.
had jars of semen in the basement next door.
had jars of urine and feces in the basement next door.
they say he cooked meth in the basement next door.

Livin' in a duplex.
a big old house in a big old town.
split in half down the middle.
plywood walls nailed over the doorways.
basement connected.
nailed up with wood.

They say he cooked meth in the basement next door.
yeah, I hear he cooked meth in the basement next
door.
twas the one right after nine oh nine.
twas the one the papers didn't write.
they say he cooked meth in the basement next door.
had jars of semen in the basement next door.
had jars of urine and feces in the basement next door.

They found him hangin' in the basement next door.
