She's been clawing at your head
Ever since the day that you were wed
And you never listened to a word I said

The kiss upon the mirror
Look out now she's drawing nearer
So who is in danger?
Can I crawl into bed?
Oh that's what she said

Flies around her lips

Voluptuous diseases
They corrupt you
And they please

Trust in me!

Why not ???
Cut her up slice by slice
Ha ha ha
You can only revise your death
Oh is that what someone said
Take a look at you now
Who's in danger?
Who's in danger?
Who's in danger?
Who's in danger?
