[Music: Mike / Lyrics: Bastian]

Path of endless fire, bloody ride, the burning of my  
soul  
Paint twisting agony, killing me, I'll take the coffin ride  
I feel my hollow breathing all in me, is emptiness inside  
I feel my life is ceasing me, painfully, as life and death  
unite

Seas of red, I crossed before  
Born dead, I take your soul, I come to life  
Memories, still haunting me  
Involving madness feeds my kill throughout the night

Path of endless fire, in my mind, I see the demons  
dance  
They watch my body suffer, feast upon, my blood  
soaked misery  
Afterlife confessions, buried lies, death inflicted  
murder  
Spirit stained by blackened cries,  
The future holds what death decides

Path of endless fire  
Path of endless fire  
Path of endless fire  
Path of endless fire
