Down, gotta lay me down, down, down to sleep
(Down, gotta lay me down)
I pray to the Lord that
A holy ghost bless my soul to keep
(Pray to the Lord, my soul)

And if I should die before I wake
Wake up, wake up, hope that He saved a place in
heaven
So I pray every day for my soul He take up

Gettin' my hustle in every day, each day
When I would get on my knees and pray
Every day faced with all kinda playa hatin'
Why they wanna make my sanity tighten
Pray, hey, hey, hey, and I got

Beautiful family, a lovely wife, and my little pretty
daughter
And I got two sons, handsome just like me, so I count
blessing
After each blessing, every last blessing I learned a
lesson
I didn't realize my blessings keep me from stressin'
Jesus came, and died on the cross to save us from our
sins, our sins

The kingdom of heaven's at hand, how much to repent
to get in?
Again and again, I'm sendin' my praises up above and I
don't know
When I'm entertainin' angels, so I gotta show more love
Gotta honor Mother and Father with all my heart
My little brothers Steven and Stewart
We don't let demons break us apart, yeah

You know that's a no-no for sure, I can put it on my soul
I can even put it [unverified] and run the little seconds
down the road
I'm ready to go, steady rollin', leavin' these strangers
If the whole world would end tomorrow, tomorrow just
might be the end

So wait for the Lord, follow

Down, gotta lay me down, down, down to sleep
(Down, gotta lay me down)
I pray to the Lord that a holy ghost bless my soul to
keep
(Pray to the Lord, my soul)

And if I should die, before I wake
Wake up, wake up, hope that He saved a place in
heaven
So I pray every day for my soul, He take up
(Hallelujah, Hallelujah, Hallelujah, Hallelujah)
(Is the highest praise forever, amen)

Must you prepare for the judgment, baby
Now tell me what you've been up to lately
Situations steady come on the daily, no, it don't really
surprise me
It don't amaze me, but it do drive me crazy
Demons, they keep tryin' to fade me and it's so evil

All they wanna do is aggravate me, trip, and I flip
Don't make me see, even when I'm not lookin' for
trouble
Trouble, it seem to come, find, that's how it is
When you live in the limelight, but I don't worry

Put it all behind me gotta get down, way down, stay
down
Satan up, under my foot, gotta rebuke
And recite the scriptures from the
Holy Book, that's when it straight shook

Look at the prophecy comin' down in history, still it ain't
no mystery
Can't let it repeat, good's gonna demolish evil
What a miraculous, wonderful victory, oh, yeah
Armageddon waitin' for the [unverified] when the lid,
pop
When it goes down, don't be sleepin' 'cause it'll creep
on us

Send a thief in the night watch out, wake up, stay woke
And gather more faith in Jesus, lead us get ready to
The will of God, so that He can keep us from the wrath
Of fiery brimstones stay strong and hold onto your
faith
And it won't greet you, yet meet you, deceit you, we're
leadin'
And walkin' through heaven's gates

Down, gotta lay me down, down, down to sleep
(Down, gotta lay me down)
I pray to the Lord that a holy ghost bless my soul to
keep
(Pray to the Lord, my soul)

And if I should die, before I wake
Wake up, wake up, hope that He saved a place in
heaven
So I pray every day for my soul, He take up
(Hallelujah, Hallelujah, Hallelujah, Hallelujah)
(Is the highest praise forever, amen)
Our father, which art in Heaven, hollow would be Thy
holy name

Down, gotta lay me down, down, down to sleep
(Down, gotta lay me down)
I pray to the Lord that a holy ghost bless my soul to
keep
(Pray to the Lord, my soul)

And if I should die, before I wake
Wake up, wake up, hope that He saved a place in
heaven
So I pray every day for my soul, He take up
(Hallelujah, Hallelujah, Hallelujah, Hallelujah)
(Is the highest praise forever, amen)

Oh, Lord, oh, Lord, how majestic is Thy name in all the
earth
