"Into The Depths Of No Return"

Visit "[Into The Depths Of No Return](#)" on MotoLyrics.com

I saw the dimension
Where everything turns black
I had this vision
Of never coming back

I feel the growing
Hatred in their eyes
Before the sunrise
All of us will die

I face the end
Sorrows distend
Into the depths of no return

Into the depths of no return
Into the depths

My soul is tortured
By demons of the dead
I'm bound for nowhere
With destination grave

My pending burden
To suffer for my sins
The final curtain
Will fall when darkness wins
