Light of the reason and truth guide the knowledge in  
the heads of men  
Free them of the weight of false beliefs  
Hate, like a son grown up inside for them who stole our  
fragile minds  
Shadows that control our free will  
Enemies of humanity hold us with tricks and lies  
So your empire will be destroyed  
All beliefs into the void  
Until the last one I will see you die

Need of killing preachers that lie, it's my hate that  
come outside  
Tolerance's no place in my mind, kill and free yourself  
Decimate them all

Down on your knees when you see me  
Look inside my blade  
One last time to see your face  
Where's the god you pray  
When your flesh and bones fall down

Feel my blade inside you, it's cold

Kills, god everybody kills everybody, decimate them all

Burn in the flames of your hell  
Feel all the pain you deserve by my hand  
God is the breath you won't have  
Suffocate your lies in the blood of your death

Suffer, suffer in silence  
Suffer, suffer in your hell  
Light of the reason and truth  
Free us of the weight of false beliefs  
Spread your power through our hate  
Decimate them that control our will

Enemies of humanity, hold our minds with tricks and  
lies  
In your flesh I will twist my knife, kill and free yourself  
Kill, suffer
