Your blood decorates  
The walls of my mind  
It's your soul I take  
Your dread is now enshrined

As you lay there limp and fragile  
I observe your every thought  
Your mind is completely mangled  
Broken down you drift away  
I cherish these manic moments  
Skin so soft and deathly cold  
How I envy you...  
As your torment nears it's end

With trembling fear  
You open your eyes to your demise  
Watching you writhe, I realize  
It's your suffering that I love  
I can not deny!

You cannot defy me!

Watching your life, slip away  
Your eyes roll back I start to hack  
Display my decay!

Frozen, fearful stare  
Tantalizes me  
Drowning in despair  
I wait patiently!

I will sit here waiting  
For as long as it takes  
To put you where I need you  
Destroy your fucking life  
Accept your fucking fate  
You have surely earned it  
So sit there and suffer  
Atoning your ways...

With trembling fear  
You open your eyes to your demise

Watching you rise, I realize  
It's your suffering that I love  
I can not deny!

You cannot defy me!

Watching as your life, slip away  
You can't think back, your life turns black  
Display my decay!
