"Monarch Of Misery"

Imploring the abstract
Needs undefined
Contemptible and devious
A corroded reality
Your everlasting fear, so stimulating
As you conform to the blackness of my thoughts

Imagine such lunacy
My lust is becoming climatic
As is the horror I see in your eyes
Monarch of misery

Imploring the abstract

Needs undefined
Contemptible and devious
A corroded reality
Your everlasting fear, so stimulating
As you conform to the blackness of your thoughts

Imagine such lunacy
My lust is becoming climatic
As is the horror I see in your eyes
Monarch of misery

Feel the treachery
In my misery!
