My sweet pretty victim
Destined for defilement
Experience a horrible pain
Her heart will beat in my hands

Knock her out, rip her organs
Rip them out, tear them out!
Knock her out, rip her organs
Rip them out, tear them out!

Methodically take out her organs
With surgical steel and bare hands
I'll fuck her when she's screaming
I'll fuck her when she's dead

Knock her out, rip her organs
Rip them out, tear them out!
Knock her out, rip her organs
Rip them out, tear them out!

I slice her belly open

Expose the large intestine
And watch the crimson flow
Stretch incision open

Organ harvest, appendages from a virgin
As I fuck her, I disemboweled, desecrate
Organ Harvest, wrap her neck with intestines
As I eat her I ejaculate on her heart

Smash the ribs, then grab the the lungs, rip them out
Murder, rape, dissection, necrophilia
Her ass is still warm as I invade it
I told her I loved her as I jizzed on her liver
My body shaked, seized, as I ripped apart my love!
