Welcome to vegas where no one can save us from
Liars and stealers
And druggies and dealers come
To this city built on broken dreams
Where nothings really as it seems
And there's no hope for us today
Maybe we should get away

Someone pinch me
Am I dreaming?
Keep believing
I am leaving
Time is running out

Every time I run I stumble and I
Just can't keep my feet on the ground
Tell me why my world is so complicated
Why can't I get outta this town?

Everyone grows up before they are ready to
Sometimes it feels like I'm ready to grow up too
Sick of being underage
Why can't I just turn the page
There's no hope for us today
Maybe we should get away

Someone pinch me
Am I dreaming?
Keep believing
I am leaving
Time is running out

Every time I run I stumble and I
Just can't keep my feet on the ground
Tell me why my world is so complicated
Why can't I get outta this town?
