My boarding pass is ripped away
I'm stuck with nothing left to say
The terminal is fading fast
I'm finally heading home at last

I'm thinking of you endlessly
Wondering if you'll write to me
And I will miss you
I hope that you will miss me

If you would keep in touch with me
That would mean everything
I know these memories will stay with me forever
Vegas will never be the same to me again

I wish you did not have to live so far away

I know this sounds strange but I miss
That cigarette taste from your kiss
I loved it when you told me
That you don't want me to ever leave

It's just another girl they say
Take what you can and run away
That's what I'd do if I were you
But you're not me
And I'm not you

If you would keep in touch with me
That would mean everything
I know these memories will stay with me forever
Vegas will never be the same to me again

I wish you did not have to live so far away

Love only lasts until tomorrow

I know you wish I could stay
Here with you in milwaukee
