Tonight we'll make believe
That everything is fine
Wont you tell me that your alright tonight
Leave a note up on my door
With the questions on your mind
Just to prove that I
I know that I am on my own again
Well I am on my own again

****CHORUS****

It's like
Showing up to your own funeral
Before you've even passed away
No one wants to die alone
It's like
Playing russian roulette with your
Best friend with a loaded gun
No one wants to die alone
To die alone

Tonight we'll find the answers to offer you
For you
Judging by the questions on your mind
Well I was right
Judging by the questions in your mind
Well I was right

****CHORUS****

It's like
Showing up to your own funeral
Before you've even passed away
No one wants to die alone
It's like
Playing russian roulette with your
Best friend with a loaded gun
No one wants to die alone

To die alone [x2]
