Hey professor I've got questions to ask  
I've got no time to be sitting and waiting  
For an answer that's relating  
To the problem at hand  
That I have laid out on the table  
So bear with me our chemistry is disipating under the  
gun

Put me under the microscope  
And watch me like a movie  
This wasn't in the lesson plan  
This wasn't how it's meant to be

Whoa oh professor so  
Oh do you believe  
That the people in the city see the forest for the trees?

This was what I'm looking for  
I'm up in the middle of the night screaming  
Help me help me get outta this  
Help me help me from under the gun

This was what I'm looking for  
I'm up in the middle of the night screaming  
Help me help me get outta this  
I'm still stuck under the gun

Hey professor youve got lessons to learn  
And I have got to tell you that I'm just  
A little concerned

Pay attention and I'll mention  
At this akward situation  
That's being driven by the tension  
And is pushing me back under the gun

Whoa oh professor so  
Oh do you believe  
That the people in the city want  
The glory or the green?

This was what I'm looking for

I'm up in the middle of the night screaming  
Help me help me get outta this  
Help me help me from under the gun

This was what I'm looking for  
I'm up in the middle of the night screaming  
Help me help me get outta this  
I'm still stuck under the gun

So let us play this game of love  
That is depending on  
Self inflicting ignorance  
And all these cliché characters

So let us play this game of love  
That is depending on  
Self inflicting ignorance  
And all these cliché characters

This was what I'm lookin for  
I'm up in the middle of the night screamin  
Help me help me get outta this  
I'm still stuck...

This was what I'm looking for  
I'm up in the middle of the night screaming  
Help me help me get outta this  
Help me help me from under the gun

This was what I'm looking for  
I'm up in the middle of the night screaming  
Help me help me get outta this  
I'm still stuck under the gun
