"Lift"

Visit "[Lift](#)" on MotoLyrics.com

Lift up your head
Focus on every detail
Why does this illusion bring so much confusion
When all I can dream of is you.
lift up your head
We're rising with every breath
A liquid solution, a chemical fusion
When all I can dream of is you
Constantly feeling the earth spinning around
But I'm standing alone
With you I see stars in your eyes
In a trance, I'm so high with you I survive.
Let's get away now!
(music break)
Imagine there's no one around
Imagine you're not just a face in the crowd
There's a new set of rules,
no more pain of confusion
You're numb to the world that you know.
I'm constantly feeling like nothing's bringing me down
Cause you're always around.
With you I see stars in your eyes
In trance, we're alive ten feet off of the ground.
Let's turn it up now!
(music break)
I got you I got you I got you it's ready for you
I got you I got you I got you it's ready for you
Lift up your head
(I got you I got you I got you it's ready for you
I got you I got you I got you it's ready for you)
It's amazing where everyone goes in the end
(I got you I got you I got you it's ready for you
I got you I got you I got you it's ready for you)
Why does this illusion bring so much confusion
When all I can dream of is you.
But I'm on the ground, I'm off the ground
Ten feet off (when I'm with you), ten feet off
(when i'm with you)
I'm on the ground, I'm off the ground
Ten feet off (when I'm with you), ten feet off
(when I'm with you)

Na da da
Cause I'm on the ground, I'm off the ground
Ten feet off (when I'm with you", ten feet off
(when I'm with you)
I'm on the ground, I'm off the ground
Ten feet off, ten feet off
Na da da
I could be true
With you
I could be through
With you
Na da da Na da da Na da da Na da da Na da da
Don't you get it we're alive
Completly out of sight
We're running out of time
With love we can survive
(na da da na da da)Don't you get it we're alive
Completly out of sight
We're running out of time
With love we can survive
(na da da na da da)Don't you get it we're alive
Completly out of sight
We're running out of time
With love we can survive
(na da da na da da)Don't you get it we're alive
Completly out of sight
We're running out of time
With love we will survive
