"Future World"

Visit "[Future World](#)" on MotoLyrics.com

I know a place we all can go
Don't wanna live here anymore
I see a planet slowly die
And I get tired of wondering why

Come and join the right future world
Don't you wanna be free and alive
Come and join the right future world
To a world where we all can survive

Get on board and fly with me
To the future world (future world)
To let our children grow up there in peace
We can live in harmony
In another world (another world)
10.000 lightyears away
10.000 lightyears away

Get on board and fly with me
To the future world (future world)
We can build a better world up there
Love is not just make-believe
In another world (another world)
10.000 lightyears away

10.000 lightyears away
10.000 lightyears away
10.000 lightyears away

Don't waste the precious life away
The spaceship's taking off today
Leave your belongings all behind
Everything you need is in your mind

Get on board and fly with me
To the future world (future world)
We can build a better world up there
Love is not just make-believe
In another world (another world)
10.000 lightyears away

10.000 lightyears away

10.000 lightyears away

10.000 lightyears away

10.000 lightyears away...
