Break me down  
I'm never looking back  
To broken hearts and open scars  
If I make it in time  
Would you leave a light on  
Or leave me behind  
Would you care to stay?  
Or at least make up your mind

Is this all you ever wanted  
I know there's so much more  
I'm still writing you these letters  
They're still lying on the floor  
Never sent Never changed  
We never quit so whose to blame?  
For all the nights  
Wondering if we'll ever be the same

There's glass in your eyes now

From these shattered dreams  
Of bedside memories  
Of you and me  
These months have never come and gone like this  
before  
It must have something to do with you calling me your  
whore

Is this all you ever wanted  
I know there's so much more  
I'm still writing you these letters  
They're still lying on the floor  
Never sent Never changed  
We never quit so whose to blame?  
For all the nights  
Wondering if we'll ever be the same

What's left?
