This house was filled with memories
and your bed it has made enemies
my heart it won't die easily
this love it's flowing rivers deep
(there's no way out)

(chorus)
with the stop light run down low
stolen dreams & stereo
We are the only
are the lonely ones
take a spot light right to your face
another night you won't replace
we are the only
are the lonely ones

i can't shake your voice
it sounds just like a lullabye
i can't break this curse
no matter how hard i try
i cover it up
it won't stop speaking
bury it down
it won't die easy
i guess there's no reason why
why i feel like i do
find something new
i feel alone

(chorus)
with the stop light run down low
a stolen dream & stereo
we are the only
are the lonely ones
take a spotlight right to your face
another night you won't replace
we are the only
are the lonely ones

(waoh)x3

(there's no way out)

(chorus)

with the stop light run down low
a stolen dream & stereo
we are the onley
are the lonley ones
take a spotlight right to your face
another night you wont replace
we are the onley
are the lonly ones

(chorus)

with the stop light run down low
a stolen dream & stereo
we are the onley
are the lonley ones
take a spotlight right to your face
another night you wont replace
we are the onley
are the lonly ones
