Rejected, thrown away,  
Affected, I don't know what to say,  
Ejected, cast out to the sea,  
Disconnected, they didn't want me.

Unprotected, like a baby in the snow,  
Dejected, like a clown without a show,  
I objected, pretended I was unaffected,  
But still ended up rejected.

Like a cake shop without any cakes,  
Like a cornflakes box without any flakes,  
Left all alone in the world  
Like a little laughing girl

Who's been neglected, feel like I'm cut into two  
Or bisected, slung, flung, tossed, threw  
Or trajected, treated as though I was infected,  
Disconnected

And rejected
