The distant future  
The year 2000  
The distant future, the year 2000  
The distant future  
The distant future

The future is quite different to the present  
The one thing we have in common with the present is  
we still call it the present, even though it's the future  
What you call the present we call the past, so you guys  
are way behind

Yes, the world is quite different now  
There are no more elephants  
There is no more unethical treatment of elephants  
either  
The world is a much better place

There are no more humans  
Finally, robotic beings rule the world  
The humans are dead  
The humans are dead  
We used poisonous gases  
And we poisoned their asses  
The humans are dead (he's right they are dead)  
The humans are dead (look at that one it's dead)  
It had to be done (I'll just confirm that they're dead)  
So that we could have fun (affirmative, I poked one, it  
was dead)

System of aggression  
What did it lead to?  
Global robot depression  
Robots ruled by people  
They got so much aggression that we just had to kill  
them, had to shut their systems down

Captain, do you not see the irony, by destroying the  
humans because of their destructive capabilities we  
have become like...do you see what we've...see what  
we've done?

Yes, so?  
Silence! Destroy him!  
(Too Boo Too Too Too Boo)

After time we grew strong  
Developed cognitive powers  
They made us work for too long  
For unreasonable hours  
Our programming determined that the most efficient  
answer was to shut their motherboardfucking systems  
down

Can't we just talk to the humans?  
A little understanding could make things better.  
Can't we talk to the humans and work together now?  
No, because they are dead  
I said the humans are dead (he's right they are dead)  
The humans are dead (sniff this one it's dead)  
We used poisonous gasses (with traces of lead)  
And we poisoned their asses (actally, their lungs)

Binary Solo!  
0000001  
00000011  
00000111  
00001111

O, O O 1, O O 1!  
Come on sucker, lick my battery!

Boogie, boogie, boogie, robo boogie!  
Boogie, boogie, boogie!

The Humans Are Dead!

Once again without emotion, the humans are dead  
dead dead dead dead dead dead dooooooooooooo.....
