Im sick of waiting commiserating
on the things that never will happen
im sick of wanting broke from the first thing
in the beginning i never wanted to be waiting

Im sick of feeling sorry
when i did nothing wrong
im tired of feeling lost
so im wrote you this song
Im sick of knowing
all that you showed me
while you are alone with him
im sick of hating
you're love created
its over rated this time

Im sick of feeling sorry
when i did nothing wrong
im tired of feeling lost
so im wrote you this song
