10.000 Lightyears somewhere out in space  
They practice love and they know what it takes  
No competition and no jealousy  
Living in freedom and humanity  
10.000 Lightyears away, lightyears away far from pain  
Came to a place full of [grace and love weed]?  
10.000 Lightyears away from our fear  
Suddenly it's ringing in my ears  
Why is it now I don't wanna be here  
I feel like flow in that clock at the wall  
God, how I wish that this dream would go on  
10.000 Lightyears away, lightyears away far from pain  
Came to a place full of grace and of peace  
10.000 Lightyears away from our fear  
10.000 Lightyears somewhere out in space (10.000
