"Somewhere In The World"

Visit "[Somewhere In The World](#)" on MotoLyrics.com

Time, changer of seasons
Time will see another flower growing
Climb over the mountains
There you'll find warm winds blowing

Somewhere in the world there is peace of mind
Somewhere in the world that's what I must find
Somewhere in the world there's a place for me in this
world

I cannot believe it
Everywhere I see lonely faces
Why have we no answers?
Just some more empty places

Somewhere in the world there is peace of mind
Somewhere in the world that's what I must find
Somewhere in the world there's a place for me in this
world

Time, changer of seasons
Time will see another flower growing
Climb over the mountains
There you'll find warm winds blowing

Somewhere in the world there is peace of mind
Somewhere in the world that's what I must find
Somewhere in the world there's a place for me in this
world
