We used to hang out, play ball,
listen to Aaron Hall,
when you needed some stuff,
I took you to a big mall.
And I can't forget the times when I took you out to
dinner
You laughed all night, and I was feeling like a winner.
Never in my life I had a friend like you
You're number 1 "Boo", and I knew you felt it too,
you was like a homie to me, and I really miss your
sensitivity.

It hurt at me so much when you told me the news,
you was leaving town, got me singing the blues,
You told me "I'll see you soon", "I'll be back"
But time went by, and I lost track.
I wish I ever told you the way I feel for you
I shouldn't have wait, but now it's too late,
man why does shit like this always happen to me,
pain is my biggest enemy.

(Chorus)

I never told you, I wanna hold you
But now you are gone, so I have to move on
I never told you, I wanna hold you
But now you are gone, and I will carry on

Na na na na na na na.....

Watching while the leaves fall down in September
My heart gives a twirl, and i have to remember
the fun we had, your love was simple,
but it made me glad, you were the only one
who could set me free, if god gave me a wish,
Its you it would be. Can't somebody explain me plainly,
How to rid myself of the memory that causes pain,
again and again.
Baby you was more than a friend,
without you it's hard to cope with the everyday strain
that comes by coz, you was like soul food, and real true
any problem that came about you,
I'll never forget that time we met

The days I neglected you I regret, and now I know I love
you
Half to death, but you're gone, and I gotta move on.

(Chorus)

I never told you, I wanna hold you
But now you are gone, so I have to move on
I never told you, I wanna hold you
But now you are gone, and I will carry on

Na na na na na na na.....

(Bridge)

If you and me were together, Together we'd be
forever,
you've got to believe (don't stop) you've got to believe
(don't stop),
you've got to believe (don't stop), that the sun will shine
another day
Never told you, I never told you, I never told you, I
never told you.

(Chorus)

I never told you (I never told you), I wanna hold you (I
never told you)
But now you are gone (I never told you), and I will carry
on
I never told you (Did ya know I never told ya), I wanna
hold you (that I
wanna hold you)
But now you are gone (You), so I have to move on (And
I)

I never told you, I wanna hold you
But now you are gone (You), so I have to move on
I never told you, I never told you
I never told you.....
