(True Love Never Dies!!) (2x)

The moonlight shadows in the streetlights.
Only me and you.
A secret rendez-vous after midnight.
They tried to keep us from each other.
They crucify the love, say we're not good enough, to be
lovers.

I want to hold you in the morning (I wanna hold you).
I want to wake up by your side, give no reason to hide
from the feeling (give me a feeling)
I want to tell the world about it.
Tell them all the truth, get up on the roof top and shout
it...

Our love with last forever, true love
True love never dies!
We'll always be together.
True love.
Our love with last forever, true love
True love never dies!

We'll always be together.
True love.
