I think I'm about to black out

I blow your fucking which out

Niggaz who taught they catching me fuck that I'm
about to rip out

Ripout and then I flip out make them whack niggaz ship
out

Harbor the jet go on vacation and take a trip out

I make you niggaz jump up bitches they want to love us

Open in all over my clit straight watching the niggaz
cum up

Other bitches are trouble

Younger bitches go scrub up smelling like you got dug
up

Obey to shut the fuck up

I fertilize the world with my sperm

Speaking biblical terms

While we getting at you niggaz still remain in turn

My magnificance any flow will kill an innocent

Straight from up yonder spots

Smelling like incense

liimuialate niggaz humiliate niggaz

Beat you in your fucking head just to communicate
niggaz

As my squad get bigger you know we gonna multiply
niggaz

Blend up the mixtures and fly niggaz you want to take
pictures

Kick another

Then I rip another lyric furilla

Gorrila power persona rhyme get money quicker

C'mon c'mon c'mon

Who drops the rugged on the tape huh'

Shining like the sun on a hot day in jamaica making

movements
On the militant killing shit with my crew
Sending mcd to beirut
Nigga fuck you
You cant stop what I started
Multi-check me when one of the seas parted
Its on again spliff I spliff from the bull pen
Bare raucus
That's how we get down in justice real niggaz love this
I pop shit on wackstas
'Cause I aint scared of no motherfuckas'
I smash you bash you smoke you like a blunt then I

Have you standing still like a statue one mother fucker
Before my squad catch you

I truly believe the black man is god
My family is mixed when american in yard
Oh long yo yo this is my 10 40
This is for your moms your pops and your shorty
On some ghetto shit nigga pass the 40's

C'mon c'mon c'mon

Peep the six stars a point pushing luxury cars
I'd be the open wound cat still spittin' mt balls
I mean you all lyrically wild to take it personal
Flipmode I'm about to take the flesh from you
Hold twin gas so dumb dumb splits in tunes
Laying in the hospital because my eyes seen the size of
you

Thought it wasn't possible for me to pull first
So short with big shit so when it blasts it hurts
Evil lurks to lay you down with a curse
Feel moist up cause fool thugs sliced you up

Digga rippin' first is somethin' wicked
I killed the double cd with just the fucking snip it
Ya'll niggaz think ya'll know me
My style be off the hook like jody
Who battles rack stack whatever niggaz throw me
You lost it I be on the money like sauce kid
All on up yo face talking how much my shit costing
Kill I rhyme them fronting on me like bitch with Koby
Bryan
Bitch em'all time hit em' with a punch line make sure to
hook tight
All across the board saying how that bitck look like
Tell them shorty is always ready to blink for fame got
game
Like that Spike Lee flick
Now check it
Thats what it go like and we aint getting old unless the
