This time we going in  
Gonna get get what, get wild  
So grab somebody cause nobody going home tonight  
Said wild ones on me, everybody cheer it up  
Say 5, 4, 2, 3, were about to tear it up

Back and forth, break it to the flow  
Now ladies show your talent  
Let me shake it love, where the fellas at?  
Point her out if she the baddest  
If you know like I know, somethings going down tonight  
You know ow ow ow ow  
Don't make me have to say it twice

Oh you in trouble, you about to get it  
Head to my corner, come and let me fix it  
You broke broke broke it down, you broke broke it down  
You broke broke broke it down, you broke broke it down

Oh you in trouble, you about to get it  
Head to my corner, come and let me fix it  
You broke broke broke it down, you broke broke it down  
You broke broke broke it down, you broke broke it down

This like so interesting  
Everybody falling out  
If you looking good and you're feeling great  
Then you should shout this out  
Say ay ay ayo, everybody say it now  
Say ay ay ayo, everybody say it loud

Back and forth, break it to the flow  
Now ladies show your talent  
Let me shake it love, where the fellas at?  
Point her out if she the baddest  
If you know like I know, somethings going down tonight  
You know ow ow ow ow  
Don't make me have to say it twice

Oh you in trouble, you about to get it  
Head to my corner, come and let me fix it

You broke broke broke it down, you broke broke it down  
You broke broke broke it down, you broke broke it down

Oh you in trouble, you about to get it  
Head to my corner, come and let me fix it  
You broke broke broke it down, you broke broke it down  
You broke broke broke it down, you broke broke it down

Up in the spot just floatin around  
I see lil mama them broking it down, all over the  
ground  
Said the beat got them doing the bounce  
Repeat, shorty ready to clown  
Let loose, DJ killin em up in that booth  
Love when a woman is shaking that goose  
Must get enough to have an excuse to tear off the roof  
and not get the  
Boot, oh no  
What you mean to do right there?  
Shorty got her hands in the air  
She aint seen none of them girls  
(Shorty) bring that ass over here

Oh you in trouble, you about to get it  
Head to my corner, come and let me fix it  
You broke broke broke it down, you broke broke it down  
You broke broke broke it down, you broke broke it down

Oh you in trouble, you about to get it  
Head to my corner, come and let me fix it  
You broke broke broke it down, you broke broke it down  
You broke broke broke it down, you broke broke it down

To the right, to the left, put some boogie in your slap  
You aint with it then you might as well go home  
Now all my dogs up in here, sexy ladies everywhere  
You the truth, let them know who won the show
