Flo-Rida, Teairra, we ain't gotta cause a scene, baby

Don't make me, make me cause a scene up in here
Don't make me, make me cause a scene up in here
Don't make me, make me cause a scene up in here
Don't make me, make me cause a scene up in here

Don't make me, make me, make me, make me
Make me, make me cause a scene up in here
Don't, I'm demandin' all of my respect
I don't care who's 'bout to see me 'cause a scene up in here

I see you out here with your home boys clubbin'
Champagne popped off and you bubblin'
Sheek shoes but you better tell 'em somethin'
You better tell 'em that you're somebody's husband

I ain't with that foolishness, no, that ain't what I need tonight
But if they keep their hands off you then everythin' will be alright

All hot up in here 'cause I'm on that gasoline
And you know I'll take my shoes off and grab my Vasoline, oh

Don't make me, make me cause a scene up in here
Don't make me, make me cause a scene up in here
Don't make me, make me cause a scene up in here
Don't make me, make me cause a scene up in here

Don't make me, make me, make me, make me
Make me, make me cause a scene up in here
Don't, I'm demandin' all of my respect
I don't care who's 'bout to see me cause a scene up in here, no

Your ex girl wanna flirt? Well, she gon' get herself hurt
Even though I got on a mini skirt, I still will put in work
Don't tell me calm down 'cause I know somebody's

doin' wrong
It's gon' be trouble when I find out just what's goin' on

All hot up in here 'cause I'm on that gasoline
And you know I'll take my shoes off and grab my
Vaseline, oh

Don't make me, make me cause a scene up in here
Don't make me, make me cause a scene up in here
Don't make me, make me cause a scene up in here
Don't make me, make me cause a scene up in here

Don't make me, make me, make me, make me
Make me, make me cause a scene up in here
Don't, I'm demandin' all of my respect
I don't care who's 'bout to see me cause a scene up in
here

Hey shawty, we got the champagne poppin'
And weed for you to be poppin' off
Throwin' that attention
That'll for sho will get cops involved

Listen to me, baby
I can't help these chicks that you be rollin' on
I know that you, you do me
At the end of the night, they go home, we get grown

Uncut or cut, why even cause a scene?
Okay, we do have make up sex but I'm not datin'
Maybelline
Baby, I do got nuff respect
If not 'bout these broads, I'm 'bout my cheese
To the damn Flo-Rida, ooh, I do love my Teairra Mari

Shit, shit, I let mamma, let's be drama free, shawty,
you good
Left the ghetto, move from the projects, damn, I
thought I left the hood
Well, then I bought them stilettos to keep somethin' on
your foot
Now supply me lots of Henny, don't see some bitches
get wood

I ain't did nothin', I would never ever push your button
Then she double ella ella, no way I'ma would stay out
of it
Oh, my day breakin' up this subject, we gotta take this
out in public
I, I know you, you my wifey but my boo ain't got your
back

What'd you say? Don't test me, don't test me

I'm demandin' all of my respect
I don't care who's 'bout to see me cause a scene up in
here, no

Don't make me, make me cause a scene up in here
Don't make me, make me cause a scene up in here
Don't make me, make me cause a scene up in here
Don't make me, make me cause a scene up in here

Don't make me, make me, make me, make me
Make me, make me cause a scene up in here
Don't, I'm demandin' all of my respect
I don't care who's 'bout to see me cause a scene up in
here

All my ladies say, don't test me, don't test me

I'm demanding all of my respect
I don't care who's bout to see me cause a scene up in
here, no
