Pre- Chorus

Love is nice when it's understood.
Even nicer when it makes you feel good
You got me flippin' , why I love you so

Chorus

C'mon baby let the good times roll
C'mon baby let the good times roll
C'mon baby let the good times roll
C'mon baby let the good times roll
C'mon baby let the good times roll
C'mon baby let the good times roll

Verse 1

It's like Woodstock did it, Brand new dylan
Bob to the music, Psychedelic visit
My heart beat acoustic, moves like Hendrix
Spark to a fire, then I flame and kiss it
Go hard in my lane, bowl strikes in a blizzard
Ten million in a frame, gotta roll with the vision
Vision of a good time All I wanna know
When the party gone start
Let the good times roll.
C'mon lets go, You got a lot of livin , Keep the party on
the roll
Ain't nothing like the feeling when you winnin' in
your soul
The wheel keeps spinning only got one road
Stop stop the show . Can't stop stop the Flo.
The world ain't ready cuz I rock the globe
So act like you know, act like you know, act like you
know
Just what to do when the good times roll.

Verse 2

Rolling stones

Everybody came to get a taste of the funk
Can't nobody stop it when you bad to the bone
Got to be the hottest when you shine like chrome
Got to find that zone it's a mind of its own
Love roller coaster look around and it's gone
Love roller coaster up and and down finish strong
Just like gold I'm already sold
Let the good times roll
All around the clock clock
Up in the spot spot
Pull up in the chevy so classy and hot hot
Pockets feeling heavy got to spend what you got got
What you tryin to sell I ain't already rock rock
Gotta let go, pedal to the floor
So incredible, so much better with the flo
Ready for the show like I'm singing "Hey Joe"
Do it like a pro, Let the good times roll.

Wake up the club and lets go all out all out
