na nuna na nu na nuna na
(huh)
na nuna na nu na nuna

you movin to fast, ya askin to much,
you can't rush love love love love,
we only just met, why ya gotta rush you,
you can't rush love love love love love

It started out as a little flirt,
but it got outta hand, i thought he was cute cute so
i asked him to dance, i can tell by the way he was
looking at me that he was fallin,
right then i should admit it, i was feeling lonely

I'm getting lost in his eyes,
eyes, eyes, i'm fallin hard,
and i don't know why, why,
don't know how to survive, vive, vive, I'm in love suicide

you movin to fast, ya askin to much,
you can't rush love love love love,
we only just met, why ya gotta rush you,
you can't rush love love love love love

it's to soon to feel this way,
im lovestoned, i can't get away it's been three days
im addicted, i shoudn't stay,
i can tell that this isn't fair but i don't care,
i could tell i was taken and it took one step

I'm getting lost in his eyes,
eyes, eyes, i'm fallin hard,
and i don't know why, why,
don't know how to survive, vive, vive, I'm in love suicide

you movin to fast, ya askin to much,
you can't rush love love love love,
we only just met, why ya gotta rush you,
you can't rush love love love love love

It's so much drama in the industry
hoodrich so i keep my ghetto bitch

she my numba one plead the fifth for me
damn shawty you was here for me
i put it in my old school
it feels so cool
just like soul food(Baby)
dirty long she my go to
and when it's bitch wanna go to
so when i reap she can sew to
made up my mind
ima hustle
ima grind
start witta penny
you could end up wit a dime
just like my henny boy
gotta chase mine
ihop dennys, make ya d's in the summertime

you movin to fast, ya askin to much,
you can't rush love love love love,
we only just met, why ya gotta rush you,
you can't rush love love love love love

ya can't rush love
