### "We Already Won"

Best luck, ya'll know (Oh boy)  
Now you need to get low-ow-ow-ow-owwww  
Hey [3x]

*[Chorus:]*

(Oh) We already won, we already won,  
And ain't no need to play no more games  
We already won, we already won,  
And ain't no more need to play no more games  
Lemme hear you say we number one,  
we number one,  
we number one,  
We already won, we already won, hey

Hey you know we bend it there,  
You talkin' bout a winner no ale in the bag,  
Until we got LeBron dream throw it in the bag  
We right, number one, it's the Miami Heat dag  
I'm vibe and I'm start in Miami Heat swagger  
So surprised when we called his number six on my rag,  
That's why it's so sick can't get rid of that,  
I know they got flick ain't get rid of flash  
Ain't no half, keep your daf,  
Got more money on my salary cap  
To fit in a place for LeBron my sca,  
King James throw some powder like we moving in a  
draft

We already won, we already won  
We get LeBron James, it's already done,  
You seen the interview, you heard what he said  
I'm-a do South Beach with my homeboy Wade  
This Miami where the sun kinda hot,  
So disown me right now down to the top get dropped  
Born and raised in a county away,  
Dropped the ball at Rosea Spade  
Let's celebrate! That this one for the crib,  
Another championship, we'll do it again  
Play no games on the court, get it in  
Cause all the Heat gonna do is just win

*[Chorus]*

Hot boy Brisco baby  
Heat that flame, that fire blazing  
Call me LeBron, open like a James,  
And I don't even play no games, no sir,  
Let's go! Just know I'm so  
Course our seats are front row  
Free throw, alley,  
Home boy don't scuff my ballies  
I'm chilling from where on South Beach,  
Perhaps tissin' my \*\*\*\* forever South Beach,  
Fire, fire, fire, scorching  
Grey Goose Louge let me pro boy

Mahee, mahee,  
Jetski South Beach, penthouse parties  
Fly girls don't you know bikinis everywhere  
Start isling, you can find a boss anywhere  
Night time is the K that lives,  
Sky box to the floor, just trying to live  
Pole boy the key like waitin'  
Try to pick and roll with a team and we fadin' em  
Even though we the best and we outta here  
Triple A vallet, showtime it is  
So nip for the Knicks right here,  
You got money over here and it is what it is

*[Chorus]*

Play like it is, gotta play drop ball  
I used to play Kobe but now it's LeBron  
Now we got em on hooves and the trail boom awe  
Pole boy, hit em with the strong arm  
Ohhhh, I get ahead in bounty  
You got cash and tugging way county  
We be working like freedom of speech,  
One block gripping Miami Heat  
For real! I'm a gitcha like Chris Bosh  
Could you please just get off  
Big boy, big body, big deal  
One more scene on the beltway to happy

*[Chorus]*
