I am of alien intelligence.
At least they say so.
I could show you anything, unless I want to.
Many people run away from me.
I make them angry.
They don't like the way I shake.
I am reminded. I am reminded.
Stop and take a look at where your words are falling.
Listen to where your wisdom goes.
Oh, you may be disappointed at just how much your
victim knows.
You better kick in.
I am sickened. You won't listen.
Little girl has learned a lesson today.
She has a value.

Get up and change the sheets again.
A late night with Gallo.
Many people run away from her.
She makes them angry.
They don't like the way she moves.
She is reminding. She is reminding.
Did you wake up today?
Did you wake up yesterday?
Did you wake up today?
Will you wake up tomorrow?
